

- School leaders: you don't need to be a developer to build powerful custom tools. **Vibe coding** uses AI to write **Google Apps Script** — automating workflows, building apps, and solving real problems without writing a single line of code yourself. The AI writes only the code; your student data never leaves **Google Workspace**, keeping your tools **FERPA compliant** and your students' information private.

TRAINING OPTIONS

INDIVIDUAL COHORT

Learn with a Small Group

Join a cohort of fellow administrators

\$150

per person · cohorts under 10

Best for: individual administrators who want structured, community-based learning

- 3 live, 1-hour expert-led workshops
- Access to the GC Prompt Library
- Step-by-step app feature list
- Cohort Q&A and peer collaboration
- Session recordings for review

MOST EFFECTIVE · GROUP PD

Train Your Entire Staff

Complete PD experience, scaled to your school or district

\$800–\$1,500

dependent on school / district size

Best for: leadership teams, instructional coaches, or full staff PD days

- Custom-scoped training around your team's real workflows
- Hands-on workshops on-site or virtually
- GC Prompt Library for every participant
- Live demos using your school's actual use cases
- Post-session support & follow-up resources
- Scalable pricing based on enrollment size

1-ON-1 COACHING

Fast-Track Your Own App

Focused guidance to build and deploy your tool

\$200 / \$500

1-hour session or 3-hour deep-dive

Best for: administrators with a specific project or workflow to build

- Fully personalized — you set the agenda
- Walk through building, prompting & deploying
- In-depth troubleshooting & strategy

\$200

1-hour session
Quick wins & guidance

\$500

3-hour deep-dive
Build start-to-finish

CUSTOM BUILD

Need a Done-For-You Solution?

Skip the learning curve entirely. I'll scope, build, and deliver a custom tool for your school's exact needs.

POPULAR BUILDS INCLUDE:

- **At-Risk / MTSS Hubs** — Track grades, behavior & intervention history over time
- **Eligibility Trackers** — Auto-send daily updates to coaches & attendance staff
- **Discipline & ISI Dashboards** — Move away from paper, track behaviors digitally
- **Walkthrough Automations** — Generate & email teacher feedback instantly from your forms
- **Graduation & Credit Trackers** — Monitor every student's path to graduation
- **Testing Center Systems** — Scheduling, seating, PDF packets & teacher notifications
- **Sub & Payroll Tools** — Automate coverage sign-ups, timesheets & batch payroll PDFs
- **Digital Signature Workflows** — Collect & log student/parent agreements automatically
